INFORMATION SECURITY

Get **Cyber Essentials** and **IASME Governance** certification for your organization

The IASME Consortium is the leading Accreditation Body for the government-backed Cyber Essentials certification scheme and the award-winning IASME Governance standard.

Cyber Essentials provides technical controls which are estimated to protect against 80% of common internet-borne threats.

IASME Governance takes your organisation to the next level of security and covers similar topics to ISO 27001 in a practical manner.

Achieving either standard is a great way to reassure your clients that their data is safe.

Amwell Information Security is a Certifying Body for both schemes meaning we can help you prepare and then assess your application.

How to achieve Cyber Essentials or IASME Governance

Read the question set (free)

Register and pay Amwell

Answer the questions online

Your answers are marked by an Amwell assessor

Receive certification

Why get certified?

Complying with either certification significantly reduces the risk of your organisation becoming a victim of a cyber-attack.

The certifications show your customers that you care about the security of their information and help you win their trust.

Cyber Essentials is mandated in most UK government tenders and the supply chain of many FTSE100 companies.

Also, almost all companies in the UK defence supply chain will require Cyber Essentials.

How long does it take?
- You will get access to the web portal immediately after paying
- Answer the questions (you have up to four months to do this)
- It usually take less than 48 hours to have your answers marked and award certification
